[Orange Reg. 11; Orange Reg. 10 Terminated]

PART 1031—ORANGES AND GRAPE-FRUIT GROWN IN LOWER RIO GRANDE VALLEY IN TEXAS

Limitation of Shipments

§ 1031.323 Orange Regulation 11.

(a) Findings. (1) Pursuant to the marketing agreement and Order No. 131 (7 CFR Part 1031; 25 F.R. 9093), regulating the handling of oranges and grapefruit grown in the lower Rio Grande Valley in Texas, effective September 22, 1960, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendation of the Texas Valley Citrus Committee established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of oranges, as hereinafter provided, will tend to effectuate the

declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 1001-1011) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of oranges, grown in the production area, are presently subject to regulation by grades and sizes pursuant to the marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Texas Valley Citrus Committee on February 27, 1961, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act,

to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of oranges; and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

(b) Order. (1) Terms used in the marketing agreement and order shall, when used herein, have the same meaning as is given to the respective terms in said marketing agreement and order; and terms relating to grade, size (diameter), and standard pack, when used herein, shall have the same meaning as is given to the respective terms in the United States Standards for Oranges (Texas and States other than Florida, California, and Arizona) (§§ 51.680–51.712 of this title).

(2) Orange Regulation No. 10 (§ 1031.320; 26 F.R. 1439) is hereby terminated at 12:01 a.m., c.s.t., March 4,

1961.

(3) During the period beginning at 12:01 a.m., c.s.t., March 4, 1961, and ending at 12:01 a.m., c.s.t., July 2, 1961, no handler shall handle:

(i) Any oranges of any variety, grown in the production area, unless such oranges grade at least U.S. No. 2;

(ii) Any oranges of any variety, grown as aforesaid, which are of a size smaller than $2\%_6$ inches in diameter, except that, unless otherwise provided, not more than 10 percent, by count, of such oranges in any lot of containers, and not more than 15 percent, by count, of such oranges in any individual container in such lot may be of a size smaller than $2\%_{16}$ inches in diameter;

(iii) Any oranges of any variety, grown as aforesaid, packed in any box or carton of inside dimensions other than those specified in subdivision (iv) of this paragraph, unless the oranges are of a size within the diameter limits specified for one of the following pack sizes and otherwise are packed in accordance with the requirements of standard pack, except that not to exceed a total of 10 percent, by count, of the oranges in any such container may be outside such diameter limits:

| Diameter | Diameter

(iv) Any oranges of any variety, grown as aforesaid, packed in a box or carton having inside dimensions of $19\frac{3}{4} \times 13 \times 13\frac{1}{2}$ inches, $19\frac{3}{4} \times 13 \times 12\frac{1}{2}$ inches, $19\frac{3}{4} \times 13\frac{1}{2} \times 13\frac{1}{2}$ inches, or $19\frac{3}{4} \times 13 \times 12\frac{1}{4}$ inches, unless such container is packed in accordance with one of the following pack sizes and contains the applicable number of oranges specified for the pack size: *Provided*, Such oranges

are within the diameter limits specified in subdivision (iii) of this subparagraph for the particular pack size, except that not to exceed a total of 10 percent, by count, of the oranges in any such container may be outside such diameter limits:

Information and effective date. This amendment eliminates the requirement of the execution of SBA Form No. 420 by at least three members of the board of directors of the Licensee. SUBCHAPTER C-AIRCRAFT REGULATIONS

[Reg. Docket No. 662; Amdt. 258]

PART 507—AIRWORTHINESS DIRECTIVES

Armstrong Whitworth AW-650 Aircraft

Pursuant to the authority delegated to me by the Administrator, (25 F.R. 6489), an airworthiness directive was adopted on February 10, 1961, and made effective immediately because of the safety emergency involved, as to all known United States operators of Arm-Whitworth AW-650 aircraft. strong Recent inspections disclosed defects in the elevators, fins and flaps which had been inspected only three hours previously.

For this reason it was found that immediate corrective action was required in the interest of safety, that notice and public procedure thereon were impracticable and contrary to the public interest and that good cause existed for making this airworthines directive effective immediately as to all known U.S. operators of Armstrong Whitworth AW-650 aircraft by individual telegrams dated February 10, 1961. It is hereby published in the FEDERAL REGISTER as an amendment to § 507.10(a) of Part 507 (14 CFR Part 507) to make it effective as to all persons:

ARMSTRONG WHITWORTH. Applies to all Model AW-650 aircraft.

Compliance required as indicated.

Because of service defects found on the elevators, fins, and flaps, the following is required:

(a) Unless already accomplished, the following modifications must be accomplished prior to the next flight.

(1) Outboard end of both elevators must be modified in accordance with Armstrong Whitworth Drawing M.30044, Issue 1 (Modification Number 637)

(2) Tail boom stub fins must be modified in accordance with Armstrong Whitworth Drawing M.30045, Issue 1 (Modification Number 638)

(b) Prior to accumulating 200 hours total time in service, replace all flaps with flaps modified in accordance with Armstrong Whitworth Drawing M.30041, Issue 1, M.30042, Issue 1, and M.30043, Issue 1 (Modication Number 636).

(c) Prior to every flight, visually inspect the following areas for loose rivets, cracks and damaged skin.

(1) Top and bottom surface of both elevators including horn balances.

(2) Inboard and outboard sides of left and

- (3) Entire surface of left and right rudders including tabs.
- (4) Under surface of inboard flaps.
- (d) If loose rivets or damaged skin is found, an approved repair must be accomplished prior to further flight.
- (e) If cracks are found, the following action must be taken:
- (1) If cracks between adjacent rivets or cracks at least one-inch long are found, the internal structure in that location must be inspected. If no internal damage is found, an FAA approved repair must be made to the skin prior to the next flight. If any internal damage is found the component must either be replaced or an FAA approved repair incorporated prior to the next flight.

(2) Cracks less than one-inch long must be stopped by drilling or repaired.

This amendment shall become effective upon publication in the FEDERAL REGIS-TER for all persons except those to whom it was made effective immediately by individual telegrams dated February 10,

(Secs. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on February 24, 1961.

GEORGE C. PRILL, Acting Director, Bureau of Flight Standards.

[Reg. Docket No. 683: Amdt. 259]

PART 507—AIRWORTHINESS DIRECTIVES

Douglas DC-6 and DC-7 Series Aircraft

Airworthiness Directive 54-25-1 (21 F.R. 9533), requires one-time inspection and replacement of emergency exit door hinges on Douglas DC-6 Series aircraft. During investigation of recent failures it has been determined that the hinge fittings reach their fatigue life at approximately 32,000 hours' time in service. To prevent further failures which can result in loss of passengers, it is necessary to require repetitive inspection until replacement with redesigned hinges. The hinge fittings on DC-7 aircraft are similar to those on DC-6 aircraft and must be subjected to the same inspection and rework. Accordingly, AD 54-25-1 (21 F.R. 9533), is being superseded by a new directive.

Since safety of the aircraft is involved, notice and public procedure hereon are impracticable and good cause exists for making this amendment effective 10 days after publication in the FEDERAL REG-ISTER.

In consideration of the foregoing, and pursuant to the authority, delegated to me by the Administrator (25 F.R. 6489), § 507.10(a) of Part 507 (14 CFR Part 507), is hereby amended by adding the following new airworthiness directive:

Douglas. Applies to all Model DC-6 Series prior to S/N 44888 and DC-7 Series up to S/N 44872 having 32,000 or more hours' time in service.

Compliance required as indicated.

Instances have been reported of loss of emergency exit doors during pressurized flight due to failure of the bottom hinge fitting with subsequent failure of the top

hinge fitting. To preclude further occurrences, the following shall be accomplished

on the emergency exit door hinges:

(a) Unless already accomplished within the last 350 hours' time in service, emergency exit door hinges with less than a one-inch door skin recess radius shall be inspected for cracks in the radius using dye penetrant, or equivalent, within the next 50 hours' time in service and repeated within each 400 hours' time in service thereafter until hinges are replaced as indicated in (b). are found, the hinges must be replaced prior to further pressurized flight.

(b) Aircraft with hinges having less than a one-inch door skin recess radius must have the hinges replaced within the next 2,000 hours' time in service. Parts not replaced at the end of 2,000 hours' time in service can be kept in service an additional 600 hours providing inspections per (a) are made each

200 hours' time in service.

All replacement hinges must have at least a one-inch door skin recess radius and hinges having a 3/2-inch radius may not be reworked to the one-inch radius.

(Douglas Service Bulletins DC-6 No. 848; second reissue dated January 4, 1961, and DC-7 No. 393 dated January 3, 1961, cover the above subject.)

This supersedes AD 54-25-1, 21 F.R. 9533.

This amendment shall become effective March 15, 1961.

(Secs. 313(a), 601, 603; 72 Stat. 752, 775, 776; 49 U.S.C. 1354(a), 1421, 1423)

Issued in Washington, D.C., on February 24, 1961.

GEORGE C. PRILL. Acting Director, Bureau of Flight Standards.

> SUBCHAPTER E-AIR NAVIGATION REGULATIONS

[Airspace Docket No. 60-NY-119]

PART 600-DESIGNATION OF FEDERAL AIRWAYS

PART 601-DESIGNATION OF THE CONTINENTAL CONTROL AREA, CONTROL AREAS, CONTROL ZONES, REPORTING POINTS, POSI-TIVE CONTROL ROUTE SEGMENTS, AND POSITIVE CONTROL AREAS

PART 608-SPECIAL USE AIRSPACE

Designation of Restricted Area/Military Climb Corridor and Modification of VOR Federal Airways, Control Area Extension and Control

On November 23, 1960, a notice of proposed rule making was published in the FEDERAL REGISTER (25 F.R. 11115) stating that the Federal Aviation Agency (FAA) proposed to designate a restricted area/ military climb corridor at Westover AFB, Chicopee Falls, Mass., and modify VOR Federal airways No. 39 and 106, the Chicopee Falls control area extension and the Westover, Mass., control zone.

No adverse comments were received regarding the proposed amendments. Subsequent to publication of the notice, Airspace Docket No. 60-WA-194 (26 F.R. 870) has been published which changes, among other things, the explanation of terms and the restricted area numbering

system of Part 608 of the regulations of the Administrator. Therefore, actions taken herein will conform to those changes. This will not change the allocation of airspace as proposed. In addition, the Department of the Air Force (USAF) has advised the FAA that interceptor aircraft utilizing the climb corridor are TACAN equipped only. As a result, the USAF has requested that the climb corridor be designated on the 046° True radial of the Westover TACAN latitude 42°11′34′′ N., longitude 72°-31′46′′ W.) in lieu of the Westover TVOR. This action is also taken herein since the TACAN and TVOR are separated by only a few feet.

Moreover, the upper limits of the climb corridor at or above 24,000 feet MSL are expressed as flight levels to conform to the use of a standard altimeter setting

at these altitudes.

Interested persons have been afforded an opportunity to participate in the making of the rules herein adopted, and due consideration has been given to all rele-

vant matter presented.

The substance of the proposed amendments having been published, therefore, pursuant to the authority delegated to me by the Administrator (25 F.R. 12582) and for the reasons stated herein and in the notice, the following actions are taken:

1. In § 608.41 (26 F.R. 881) the following is added:

at the outer extremity.

Designated altitudes. 2,200' MSL to 15,200' MSL from 5 miles NE of the airbase to 6 miles NE of the airbase. 2,200' MSL to flight level 240 from 6 to 7 miles NE of the airbase. 2,200' MSL to flight level 270 from 7 to 10 miles NE of the airbase. 6,200' MSL to flight level 270 from 10 to 15 miles NE of the airbase. 10,200' MSL to flight level 270 from 15 to 20 miles NE of the airbase. 200' MSL to flight level 270 from 20 to 25 miles NE of the airbase. 19,200' MSL to flight level 270 from 25 to 32 miles NE of the airbase.

Title 19—CUSTOMS DUTIES

Chapter I-Bureau of Customs, Department of the Treasury

PART 8-LIABILITY FOR DUTIES; EN-TRY OF IMPORTED MERCHANDISE

Admission of Articles Free of Duty

Under section 321(a)(2)(C), Tariff Act of 1930, as amended, and § 8.3 of the Customs Regulations, articles may be admitted free of duty, without the preparation of an entry, if among other requirements the value of such articles imported by one person on one day does not exceed \$1.

The admission of articles free of duty and without the preparation of an entry under section 321(a)(2)(C) of the tariff act in the case of articles of a class or kind prescribed for in quotas is inconsistent with the purpose of such quotas.

Accordingly, to insure that the quota merchandise will not enter the country under section 321(a)(2)(C), § 8.3(d) of the Customs Regulations is amended by adding a new subparagraph designated (7) reading as follows:

(7) The exemption referred to in section 321(a)(2)(C) is not to be allowed in the case of any merchandise of a class or kind provided for in any absolute or tariff-rate quota, whether the quota is open or closed. In the case of merchandise of a class or kind provided for in a tariff-rate quota, the merchandise is subject to the rate of duty in effect on the date of entry.

PART 13—DEPARTMENT OF VETER-ANS BENEFITS, CHIEF ATTORNEYS

Domestic Relations Questions, Restoration to Rolls, and Conflict of Laws

In § 13.402, paragraph (c) is amended to read as follows:

§ 13.402 Domestic relations questions, restoration to rolls, and conflict of laws.

(c) Veterans Administration determinations of validity of marriage for the purposes of §§3.1(j), 3.55, 3.205 and 3.402(c) will be based on the entire record, including evidence of conduct and reputation and applicable presumptions, as well as any available public records. Recognition of the finality ordinarily attaching to court decrees as determinative of status will not preclude independent determination respecting eligibility under Federal law. A "void marriage" is a purported marriage which, under the law of the applicable jurisdiction, and notwithstanding the form of marriage, is not a valid marriage. A "voidable marriage" is one which comes into existence under circumstances that entitle one of the parties to disavow the contract for cause recognized under the law of the applicable jurisdiction, but which, in the absence of formal disavowal and decree of annulment, continues in the status of valid marriage.

Chapter I—Federal Communications

[FCC 61-277]

PART 1—PRACTICE AND PROCEDURE

Applications for Television Broadcast Translator Stations; Order

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 27th day of February 1961;

The Commission having under consideration the provisions of § 1.359 of its rules relating to the giving of local notice of applications for broadcast facilities and amendments to such applications:

It appearing that the purpose of television translator stations is to rebroadcast the signals of regular television broadcast stations; that they operate with extremely low power; and that in many cases they serve a small number of people in remote communities in which newspapers are not published; and

It further appearing that in view of the foregoing, it is neither necessary nor appropriate that applicants for television translator facilities be required to give the same local notice as in the case of other broadcast applicants, and that it would be in the public interest to adopt separate and simpler local notice requirements for applications for television translator facilities; and

It further appearing that these amendments to the rules are procedural in nature and that they relax existing

requirements, and that therefore compliance with the notice and effective date provisions of section 4 of the Administrative Procedure Act is not required; and

It further appearing that authority for the promulgation of these rules is contained in sections 4(i), 303(r) and 311 of the Communications Act of 1934, as amended;

It is ordered, That, effective February 28, 1961, § 1.359 of the Commission's rules and regulations is amended as set forth below.

(Sec. 4, 48 Stat. 1066, as amended; 47 U.S.C. 154. Interprets or applies sec. 303, 48 Stat. 1082, amended; 47 U.S.C. 303)

FEDERAL AVIATION AGENCY

[14 CFR Parts 600, 601]

[Airspace Docket No. 61-AN-2]

FEDERAL AIRWAYS AND CONTROLLED AIRSPACE

Revocation of Segment of Federal Airway and Associated Control Areas

Pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), notice is hereby given that the 409.13 Aviation Agency is considering an amendment to §§ 600.102 and 601.102 of the regulations of the Administrator, the substance of which is stated below.

Amber Federal airway No. 2 extends in part from the Bettles, Alaska, radio range via the Umiat, Alaska, nondirectional radio beacon to the Point Barrow, Alaska, nondirectional radio beacon. The Federal Aviation Agency is considering revoking this segment of Amber 2. The non-controlled segment of this airway is based, in part, on the Umiat radio beacon which is privately owned and is unavailable for public use except in emergency or through arrangement with Wien Alaska Airlines. In addition, the Federal Aviation Agency

does not possess control capability for aircraft operating between Bettles and Point Barrow. Therefore, it appears that the retention of this airway segment is unjustified as an assignment of airspace. Accordingly, the Federal Aviation Agency proposes to revoke the segment of Amber 2 and its associated control areas from Bettles to Point Barrow. Adoption of this proposal would not necessarily result in discontinuance of the low frequency navigational aids associated with this segment of Amber Any proposals to discontinue one or more of these aids would be processed in accordance with current Agency procedures.

The revocation of this segment of airway would not adversely affect future plans for common-system NAVAIDS and controlled airways north of Bettles and would not restrict any off-airway route authorization from Bettles to Point Barrow.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, P.O. Box 440, Anchorage, Alaska. All communications received within forty-five days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Agency officials may be made by contacting the Regional Air Traffic Management Field Division Chief, or the Chief, Airspace Utilization Division, Federal Aviation Agency, Washington 25, D.C. Any data views or arguments Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official Docket will be available for examination by interested persons at the Docket Section, Federal Aviation Agency, Room B-316, 1711 New York Avenue NW., Washington 25, D.C. An informal Docket will also be available for examination at the office of the Regional Air Traffic Management Field Division Chief.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348).

Issued in Washington, D.C., on February 24, 1961.

CHARLES W. CARMODY, Chief, Airspace Utilization Division.

[Airspace Docket No. 60-NY-60]

CONTROL ZONES

Modification of Proposed Redesignation

In a notice of proposed rule making published as Airspace Docket No. 60-NY-60 in the FEDERAL REGISTER on December 24, 1960, (25 F.R. 13727), it was stated that the Federal Aviation Agency proposed to redesignate the Boston, Mass., control zone within a 5-mile radius of the Logan International Airport (latitude 42°21'47'' N., longitude 71°00'-19" W.); within 2 miles either side of the 001° True radial of the Boston VOR extending from the 5-mile radius zone to 12 miles north of the VOR; within 2 miles either side of the of the north course of the Boston radio range extending from the 5-mile radius zone to the Peabody, Mass., fan marker; within 2 miles either side of the 071° True radial of the Boston VOR extending from the 5-mile radius zone to 12 miles east of the VOR; within 2 miles either side of the southeast course of the ILS localizer serving Runway 33

extending from the 5-mile radius zone to the outer marker; within 2 miles either side of the 144° True radial of the Boston VOR extending from the 5-mile radius zone to 7 miles south of the VOR; and within 2 miles either side of the southwest course of the ILS localizer serving Runway 4R extending from the 5-mile radius zone to the outer marker.

Subsequent to the publication of the notice, it has been determined that a requirement exists to designate an additional control zone extension to the southwest of Logan International Airport. This extension would provide protection for aircraft while conducting prescribed instrument approach procedures to the airport from the southwest where the terrain is approximately 600 feet higher than the airport elevation. Accordingly, the original notice is hereby amended by adding the following:

Designate a control zone extension within 2 miles either side of the 222° True radial of the Boston VOR extending from the 5-mile radius zone to 12 miles southwest of the VOR.

In order to provide interested persons time to adequately evaluate this pro-

posal, as modified herein, and an opportunity to submit additional written data, views or arguments, the date for filing such material will be extended to March 25. 1961.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 409.13), I hereby give notice that the time within which comments will be received for consideration on Airspace Docket No. 60-NY-60 is extended to March 25, 1961. Communications should be submitted in triplicate to the Chief, Air Traffic Management Field Division, Federal Aviation Agency, Federal Building, New York International Airport, Jamaica, N.Y.

This amendment is proposed under section 307(q) of the Federal Aviation Act of 1958 (72 Stat. 749; U.S.C. 1348).

Issued in Washington, D.C., on February 27, 1961.

J. R. BAILEY,
Assistant Chief,
Airspace Utilization Division.

Effective date. The foregoing notice shall become effective upon publication in the Federal Register.

Certain additional stockyards and slaughtering establishments have been added to the list of those heretofore specifically approved under the regulations in 9 CFR Part 78. It has been determined that the inspection and handling of livestock or carcasses or prodthereof at such stockyards or establishments are adequate to effectuate the purposes of such regulations. Certain stockyards and slaughtering establishments have been removed from the list of those heretofore specifically approved under said regulations, because it has been determined that such stockyards and establishments no longer qualify for specific approval under the regulations. This action, therefore, imposes certain restrictions necessary to prevent the spread of brucellosis and relieves certain restrictions presently imposed. It should become effective promptly in order to accomplish its purpose in the public interest and to be of maximum benefit to persons subject to the restrictions which are relieved hereby. Accordingly, under section 4 of the Administrative Procedure Act (5 U.S.C. 1003), it is found upon good cause that notice and other public procedure with respect to this action are impracticable and unnecessary, and good cause is found for making this notice effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 27th day of February 1961.

R. J. Anderson, Director, Animal Disease Eradication Division, Agricultural Research Service.

GRAINS AND RELATED COMMODI-TIES UNDER NONRECOURSE WARE-HOUSE-STORAGE LOANS MADE UNDER 1960 PRICE SUPPORT PRO-GRAMS

Notice of Final Date for Redemption

Unless earlier demand is made by CCC, nonrecourse warehouse-storage loans under 1960 Price Support Programs on the agricultural commodities designated in the table below mature and are due and payable on the dates indicated. Unless on or before the final date for repayment specified below such loans are repaid or the producer notifies the ASC county committee in writing that the funds have been placed in the mail, title to the unredeemed collateral shall immediately vest in CCC without a sale thereof, on the date next succeeding the final date for repayment specified below. This notice applies to all such unredeemed collateral pledged to CCC under nonrecourse der nonrecourse warehouse-storage loans, including that quantity of a commodity on which if CCC were to effect settlement under nonrecourse price support would result in a person, who is not eligible for unlimited nonrecourse price support on the commodity, receiving or retaining nonrecourse price support on the commodity in excess of \$50,000 (such quantity is hereinafter called "excess commodity"). CCC shall have no obligation to pay for any market value which the unredeemed collateral may have in excess of the loan indebtedness, i.e., the unpaid amount of the note plus interest and charges. Nothing herein shall preclude making payment to a producer of any amount by which the settlement value of the pledged commodity may exceed the principal amount of the loan. Except as to the excess commodity, the settlement value as used herein is the price support value of the pledged commodity determined on the basis of the weight, grade, and other quality factors shown on the warehouse receipts or accompanying documents in accordance

with the applicable support rate provided in the Program Bulletin. The settlement value of the excess commodity is the market value on the maturity date, as determined by CCC, or the price support value, whichever is the lower. Notwithstanding the foregoing provisions, if the producer has made a fraudulent representation in obtaining the loan, the producer shall remain personally liable for the amounts specified in the Producer's Note and Loan Agreement—Warehouse-Storage Nonrecourse Loan.

Amounts due the producer will be paid to the producer by the appropriate ASC county office.

[Docket No. 50-13]

BABCOCK & WILCOX CO.

Notice of Proposed Issuance of Amendment To Facility License

Please take notice that, unless within fifteen days after the filing of this notice with the Office of the Federal Register a request for a formal hearing is filed with the United States Atomic Energy Commission by the licensee or an intervener as provided by the Commission's rules of practice (Title 10, Chapter 1, Part 2), the Commission proposes to issue to The Babcock & Wilcox Company an amendment to Facility License No. CX-12 substantially as set forth below. The proposed amendment would authorize the licensee, as requested in its applications for license amendment dated December 5, 1960, and January 11, 1961, to modify its split-table critical facility located in Bay No. 2 in the licensee's Critical Experiment Laboratory located near Lynchburg, Virginia, for the conduct of exponential experiments using heavy water systems and to conduct such experiments at power levels not exceeding one kilowatt (thermal). The amendment would also authorize the possession and use of byproduct, special nuclear, and source material in connection with the facility.

For further details see (1) the applications for license amendment dated December 5, 1960, and January 11, 1961, submitted by The Babcock & Wilcox Company, and (2) a hazards analysis prepared by the hazards evaluation staff of the Division of Licensing and Regulation, both on file at the AEC's Public Document Room. A copy of item (2) above may be obtained at the AEC's Public Document Room or upon request addressed to the Atomic Energy Commission, Washington 25, D.C., Attention: Director, Division of Licensing and Regulation.

Dated at Germantown, Md., this 24th day of February 1961.

It further appearing that the Commission, in a prehearing letter dated December 1, 1960, and incorporated herein by reference, notified the applicant, and any other known parties in interest, of the grounds and reasons for the Commission's inability to make a finding that a grant of the application would serve the public interest, convenience and necessity; and that a copy of the aforementioned letter is available for public inspection at the Commission's offices; and

At a session of the Federal Communications Commission held at its offices in

ROCKFORD BROADCASTERS, INC. (WROK) ET AL.

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of Rockford Broadcasters, Incorporated (WROK), Rockford, Illinois, has: 1440 kc, 500 w, 1 kw-LS, U; requests: 1440 kc, 500 w, 5 kw-LS, DA-D, U; Docket No. 13965, File No. BP-13422; Quincy Broadcasting Company (WGEM), Quincy, Illinois, has: 1440 kc, 1 kw, DA-2, U; requests: 1440 kc, 1 kw, 5 kw-LS, DA-2, U; Docket No. 13966, File No. BP-14225; Robert W. Sudbrink and Margareta S. Sudbrink d/b as McLean County Broadcasting Co., Normal, Illinois, requests: 1440 kc, 1 kw, DA-D; Docket No. 13967, File No. BP-14401; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D.C., on the 23d day of February 1961;

The Commission having under consideration the above-captioned and described applications;

It appearing, that except as indicated by the issues specified below, each of the instant applicants is legally, technically, financially, and otherwise qualified to construct and operate the instant proposals; and

It further appearing that the following matters are to be considered in connection with the aforementioned:

A. The proposal of Quincy Broadcasting Company causes electrical interference both to the existing operation and proposed operation (File No. BP-13685, for a power increase) of Station KIRX, Kirksville, Missouri. KIRX is being made a party hereto with respect to its existing operation but not with regard to its proposal to increase power, since interference to the proposal will not preclude a grant thereof because KIRX is a Class IV station requesting a daytime power increase.

B. Interference between the subject proposals occurs as follows:

From proposal—	To proposal—
BP-13422	BP-14225
	BP-14401
BP-14225	BP-14401
BP-14401	BP-13422

C. From data submitted by the Rockford Broadcasters, Inc., it appears that the population within the proposed 1 v/m contour is excessive pursuant to § 3.24(g) of the Commission rules.

D. On the basis of the information submitted by McLean County Broadcasting Co., it cannot be determined that their proposed directional antenna parameters will produce the proposed horizontal plane radiation pattern indicated by Figure 1 of the application form.

It further appearing that in view of the foregoing, the Commission is unable to make the statutory finding that a grant of the applications would serve the public interest, convenience, and necessity; and is of the opinion that the applications must be designated for hearing in a consolidated proceeding on the issues specified below;

It is ordered, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the instant applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine the areas and populations which would receive primary service from the proposal of McLean County Broadcasting Co. and the availability of other primary service to such areas and populations.

2. To determine the areas and populations which may be expected to gain or lose primary service from the proposed operations of Stations WROK and WGEM and the availability of other primary service to such areas and populations.

3. To determine the nature and extent of the interference, if any, that each of the instant proposals would cause to and receive from each other and the interference that each of the instant proposals would receive from all other existing standard broadcast stations, the areas and populations affected thereby, and the availability of other primary service to the areas and populations affected by interference from any of the instant proposals.

4. To determine whether the instant proposal of Quincy Broadcasting Company would cause objectionable interference to Station KIRX, Kirksville, Missouri, or any other existing standard

broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations.

5. To determine whether interference received from existing Stations WPRS, Paris, Illinois, WROK, Rockford, Illinois and proposals BP-13422 (WROK) and BP-14225 (WGEM) would affect more than ten percent of the population within the normally protected primary service area of the instant proposal of McLean County Broadcasting Co. in contravention of § 3.28(c) (3) of the Commission rules, and, if so, whether circumstances exist which would warrant a waiver of said Section.

6. To determine whether the instant proposal of Rockford Broadcasters, Inc. is in compliance with § 3.24(g) of the Commission rules concerning population within the 1000 mv/m contour, and, if not, whether circumstances exist which would warrant a waiver of said Section.

7. To determine if the proposed directional antenna parameters of McLean County Broadcasting Co. will produce the proposed horizontal plane radiation pattern indicated by Figure 1 of the application.

8. To determine, in the light of section 307(b) of the Communications Act of 1934, as amended, which of the instant proposals would best provide a fair, efficient and equitable distribution of radio service.

9. To determine, in the light of the evidence adduced pursuant to the foregoing issues which, if any, of the instant applications should be granted.

It is further ordered, That Community Broadcasters, Inc., licensee of Station KIRX, Kirksville, Missouri, is made a party to the proceeding with respect to its existing operation.

It is further ordered, That, to avail themselves of the opportunity to be heard, the applicants and party respondent herein, pursuant to § 1.140 of the Commission rules, in person or by attorney, shall, within 20 days of the mailing of this order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this order.

It is further ordered, That, the issues in the above-captioned proceeding may be enlarged by the Examiner, on his own motion or on petition properly filed by a party to the proceeding, and upon sufficient allegations of fact in support thereof, by the addition of the following issue: To determine whether the funds available to the applicant will give reasonable assurance that the proposals set forth in the application will be effectuated.

Order Suspending Proposed Tariff Sheets and Providing for Hearing

FEBRUARY 24, 1961.

On January 27, 1961, Eastern Shore Natural Gas Company (Eastern Shore), pursuant to section 4 of the Natural Gas Act and the Regulations thereunder, particularly Part 154 thereof, tendered for filing First Revised Sheets Nos. 5, 8, 11 and 18A¹ to its FPC Gas Rate Tariff, Original Volume No. 1. The tariff changes contained in the tendered filing propose an increase of \$54,227 (3.6%) over the rates currently in effect.² Although the tendered sheets bear an effective date of February 27, 1961, Eastern Shore requested that the ten-

¹A substitute First Revised Sheet No. 18A was filed on February 6, 1961, to correct an error in the like-numbered sheet filed January 27, 1961.

dered sheets be permitted to become effective no later than April 17, 1961.3

The tendered sheets increase the demand component of its two-part rates (Rate Schedule G-1 and CD-1) by \$1.414 and the commodity component thereof and its straight rate (Rate Schedule E-1) by 1.5 cents per Mcf. Eastern Shore states that proposed incremental increases in the demand and commodity rate levels represent the net change in those components of Transcontinental Gas Pipe Line Corporation's (Transco's) FPC Gas Rate Schedule CD-3, and that said Transco's net changes result from the settlement in Docket No. G-18783 4 and the suspended increased rates in Docket No. RP61-13.

In support of its filing, Eastern Shore has submitted cost data for the year ended September 30, 1960, adjusted to reflect an increase of \$98,717 in purchased gas. The claimed cost of service based on a 61/2 percent rate of return is shown as \$1,613,954 with \$710,584 allocated to the sales for resale and transportation services which constitute its jurisdictional business. The company contends that costs allocated to the sales for resale segment only exceed revenues from such business by \$115,832 under present rates and by \$61,605 under the proposed rates.

It is noted that Eastern Shore's transportation rate (Rate Schedule T-1), which is subject to the continuing condition set out in Commission's order issued November 29, 1957,5 is not proposed to be changed by this tender.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the rates, charges, classifications and services contained in Eastern Shore's FPC Gas Tariff Original Volume No. 1, as proposed to be amended by First Revised Sheets Nos. 5, 8, 11 and 18A and that said revised tariff sheets and the rates contained therein be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 15 thereof, the Commission's rules of practice and procedure and the regulations under the Natural Gas Act (18 CFR Ch. I), a public hearing be held on a date to be hereafter fixed by notice from the Secretary concerning the lawfulness of all the rates, charges, classification, and services contained in Eastern Shore's FPC Gas Tariff, Original Volume No. 1, and as proposed to be amended by First Revised Sheets Nos. 5, 8, 11 and 18A.

(B) Pending such hearing and decision thereon, Eastern Shore's proposed tariff sheets, First Revised Sheets Nos. 5, 8, 11 and 18A to its FPC Gas Tariff, Original Volume No. 1, hereby are suspended and their use deferred until April 17, 1961, and until such further time as they are made effective in the manner prescribed by the Natural Gas Act.

(C) Notices of intervention or petitions to intervene may be filed with the Federal Power Commission, Washington 25. D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 and 1.37(f)) on or before April 12, 1961.

By the Commission.

[Docket No. CP61-125]

SOUTHERN NATURAL GAS CO.

Notice of Application and Date of Hearing

FEBRUARY 27, 1961.

Take notice that on October 24, 1960, Southern Natural Gas Company (Applicant), Watts Building, Birmingham, Alabama, filed an application, as supplemented on December 19, 1960, and January 23, 1961, in Docket No. CP61-125, pursuant to section 7 of the Natural Gas Act, for a certificate of public convenience and necessity seeking authorization to acquire and operate 5.832 miles of the 10-inch Gadsden, Alabama, branch line now owned and operated by Alabama Gas Corporation (Alabama), which purchases gas from Applicant for distribution in Gadsden. Applicant also proposes to sell to Alabama its old Gadsden meter station site upon which there are no facilities.

The foregoing proposals are more fully set forth in the application on file with the Commission and open to public inspection.

The application shows that the 5.832 mile portion of the 10-inch Gadsden branch line, now owned by Alabama, lies upstream from Applicant's present Gadsden town border station and par-

allels an existing 12-inch lateral owned and operated by Applicant, which lateral also extends to the town border station serving Gadsden. Applicant states that the purchase of this branch line from Alabama will enable Applicant to have sole and complete control of the gas up to the point of metering, and will give Applicant sole responsibility for the maintenance and operation of the facilities up to that point.

Applicant proposes to pay Alabama the depreciated original cost of the 10-inch line as of the date of closing, estimated at \$18,054 as of May 31, 1960. In addition, Applicant proposes to pay Alabama \$7,504 for the actual costs incurred for installing certain new piping at road crossings incident to alteration of the line in connection with a highway project being built in that vicinity. These costs will be defrayed from cash on hand. Applicant will receive from Alabama \$700 for the old Gadsden meter station site.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and pro-cedure, a hearing will be held on April 3, 1961, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commission, 441 G Street, NW., Washington. D.C., concerning the matters involved in and the issues presented by such application: Provided, however, That the Commission may, after a non-contested hearing dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised. it will be unnecessary for Applicant to appear or be represented at the hearing.

Protest or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 20, 1961. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. CP61-197]

TENNESSEE NATURAL GAS LINES, INC. Notice of Application and Date of Hearing

FEBRUARY 23, 1961.

Take notice that on January 23, 1961, Tennessee Natural Gas Lines, Inc. (Applicant), 1003 Nashville Trust Building, Nashville 3, Tennessee, filed an application, as supplemented on February 6, 1961, in Docket No CP61–197, pursuant to section 7(c) of the Natural Gas Act, for a certificate of public convenience and necessity seeking authorization to increase previously authorized direct interruptible natural gas service to the Nashville Glass Plant of the Ford Motor Company (Ford) from 10,500 Mcf per day to 20,800 Mcf per day, all as more fully set forth in the application on file with the Commission and open to public inspection.

The application recites that Ford is presently constructing an addition to its glass plant located near Nashville, Tennessee, and that such addition will increase Ford's natural gas requirements which presently are a maximum daily quantity of 3,000 Mcf of firm gas service and a maximum daily quantity of 10,500 Mcf of interruptible gas service. The additional gas involved in the subject application will be for process use in plate glass furnaces, for heating and for process steam generation.

Applicant states that it has sufficient gas available under its contract with its sole supplier, Tennessee Natural Gas Company, to enable it to deliver the additional interruptible gas to Ford.

Applicant states further that no additional investment is required since it will deliver the additional gas to Ford at the existing delivery point, located near Nashville, Tennessee.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on March 30, 1961, at 9:30 a.m., e.s.t., in a Hearing Room of the Federal Power Commismission, 441 G Street, NW., Washington, D.C., concerning the matters involved in and the issues presented by such application: Provided, however, That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30(c) (1) or (2) of the Commission's rules of practice and procedure.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D.C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before March 20, 1961. Unless Texas Pacific is advised to the contrary within 15 days after the filing of such agreement and undertaking, the agreement and undertaking shall be deemed to have been accepted.

FEBRUARY 24, 1961.

Notice is hereby given that Ohio Edison Company ("Ohio Edison"), a registered holding company, has filed with this Commission a declaration pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7 and 12 of the Act and Rules 43 and 62 promulgated thereunder as applicable to the proposed transactions.

All interested persons are referred to the declaration for a statement of the proposed transactions which are sum-

marized below:

Ohio Edison proposes to adopt a Restricted Stock Option Plan ("Plan"), within the requirements of section 421 of the Internal Revenue Code of 1954, as amended, to grant options to key executive employees of Ohio Edison, and its subsidiary company, Pennsylvania Power Company ("Pennsylvania"), for the purchase of up to 125,000 shares of the authorized and unissued common stock of Ohio Edison. This amounts to 0.98 percent of the 12,773,498 shares of issued and outstanding common stock of Ohio Edison.

The granting of the options is subject to certain terms and conditions including the following:

1. Not more than 25 percent of the shares reserved under the Plan may be optioned to employees who, at the time of adoption of the Plan, are officers of Ohio Edison or Pennsylvania.

2. The purchase price per share of the common stock covered by each option will be the fair market value of such stock at the time of the granting of the option, subject to modifications and ad-

justments under conditions described in the Plan.

3. The aggregate exercise price of common stock optioned to any one optionee must be paid in cash upon the exercise of the option or any portion thereof and may not exceed 150 percent of the regular annual cash compensation then being paid to him by either Ohio Edison, or Pennsylvania, or both.

4. The term of any option shall not exceed ten years from the date it is

granted.

5. No option may be exercised in whole or in part during the first twelve months after its grant.

6. The plan shall terminate 4 years after the date of its approval by the holders of common stock of Ohio Edison.

The Plan will be administered by a committee selected from the board of directors of Ohio Edison, who are not eligible to receive options and who are not former employees of Ohio Edison or

Pennsylvania.

Ohio Edison further proposes at the annual meeting of its stockholders to be held on April 27, 1961, to solicit proxies from the holders of its common stock so as to obtain the approval of the Plan by the holders of a majority of its outstanding shares and for the release from preemptive rights of 125,000 of the authorized and unissued shares of its common stock.

The fees and expenses will be paid by Ohio Edison and are estimated as follows: Expenses of solicitation of proxies, \$5,000: legal fees, \$4,000; and miscella-

neous, \$1,000.

It is stated that the Public Utility Commission of Ohio has jurisdiction over the issuance of the shares of common stock upon the exercise of the options granted under the Plan and that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than March 15, 1961, at 5:30 p.m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Anv such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D.C. At any time after said date the declaration, as filed or as amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from its rules as provided in Rules 20(a) and 100 or take such other action as it may deem appropriate.

By the Commission.

[Rev. S.O. 562, Taylor's I.C.C. Order 129]

MERIDIAN & BIGBEE RAILROAD CO. AND WESTERN RAILWAY OF ALA-BAMA

Rerouting and Diversion of Traffic

In the opinion of Charles W. Taylor, Agent, the Meridian & Bigbee Railroad Company and The Western Railway of Alabama, due to flood conditions, are unable to transport traffic routed over their lines.

It is ordered, That:

(a) Rerouting traffic: The Meridian & Bigbee Railroad Company and The Western Railway of Alabama and their connections, being unable to transport traffic in accordance with shippers routing because of flood conditions, are hereby authorized to divert or reroute traffic over their lines over any available route to expedite the movement.

(b) Concurrence of receiving roads to be obtained: The railroad desiring to divert or reroute traffic under this order shall confer with the proper transportation officer of the railroad or railroads to which such traffic is to be diverted or rerouted, and shall receive the concurrence of such other railroads before the rerouting or diversion is ordered.

(c) Notification to shippers: Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

(d) Inasmuch as the diversion or rerouting of traffic by said Agent is deemed to be due to carrier's disability, the rates applicable to traffic diverted or rerouted by said Agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(e) In executing the directions of the Commission and of such Agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to such traffic; divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.
